

SKILLS FOR BUSINESS ARE **SKILLS FOR LIFE**

20th March 2006

Dear Colleague

Speaking Your Language

London Central LSC would like to invite you to a networking event for small businesses in your sector to look at how language training for your staff can improve business and work more effectively. The event is from 9.00 am to 12.30 pm on Wednesday 26th April 2006.

At the event you will hear about the benefits of staff training from employers and support organisations. You will be able to discuss some of the practicalities with other small business managers and your Sector Skills Council.

There will also be a number of stands at the event with practical information on what free support is available for you as a manager of a small business.

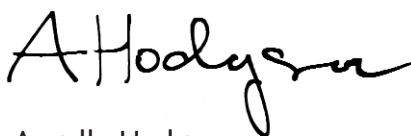

The event will be held at The Resource Centre, 356 Holloway Road, London N7 6PA
